ORDER A FREE SIM

Our pay as you go packs get
you great value data, minutes
and texts. Plus get an extra
500MB every 3 months FREE!

LAST AWARD

Our 4G network is 50% faster than O2,
Vodafone and Three, according to
Speedtest by Ookla - the global standard
in internet speed testing.

In their latest Speedtest Awards, EE
came out on top, and not just by a
fraction – Ookla found our 4G network to
be 50% faster than any other in the UK.

Decoder TIMvision

How To Use It

Connect the decoder to your ADSL Unlimited or TIM Fiber Optics to access:

to Videostore of TIMvision, where you'll find all the episodes of the best series, from the most famous to the most exclusive, cartoons and favorite series for children and teens, the most anticipated and many never seen movie premieres on TV or revise language original. Choose from over 6,000 titles to date.

the Replay TV TIMvision, where you can find all television programs aired in the last seven days on RAI networks (all devices except streaming from web) and LA7 and the archive LA7

YouTube, to see the videos you want directly from your TV

You can also enjoy the vision of Smart TV, on timvision.it and TIMvision app for Smartphone, Tablet and PC, using the credentials choices when registering to TIMvision service.

ACTIVATED HOUSE LINE

Request activation of a home phone line is very simple, you can:

- Apply online
- Call customer service fixed line 187
- Bring to you at a TIM Shop.

Check the activation mode by consulting the various deals available on line.

The necessary data are:

- Name and surname
- Tax code
- Home address so request the installation

Our technical staff will contact you as soon as possible to arrange an appointment for the telephone system installation.

1.- What documents are required?

You must provide the following documents in a vision:

The holder line identification (identity card, driving license with photo, passport);
 Tax code of the holder line;
 Antiabusivismo documentation, represented by one of the following documents:

Just in case it was not possible to present any of the documents, you will be able to produce to replace a "self-declaration in lieu of affidavit" authenticated by a notary or by the town clerk as expected art.4 of the 04/01/68 law and subsequent

2.- What are the different types of home phone line?

- HOME TELEPHONE LINE: it is a primary phone line traditional for customers who do not perform professional activities headed to any component of the master household.
- TELEPHONE LINE EXTRA: is an additional phone line letterhead traditional type to the same assignee of the main line, activated in the same or another house.
- ISDN LINE: it is a primary phone line that differs from the traditional line as it includes some specific phone services.
- LINE FOR INCOMING TRAFFIC: is an additional type of traditional telephone line to a main line, which allows only to receive calls.
- FIBER OPTIC LINE: is the new line to make calls and surf the Internet thanks to the high speed of the optical fiber, to connect at the same time, high-performance Tablet PC, Smartphone and TV with more applications and devices, view videos in HD without delays or interruptions.

3.- How to make up the secret code?

The first 3 characters of the secret code are alphanumeric characters and random. TIM has a set of 200 different possible combinations among them who assigned randomly to all its customers. Then follows the customer's phone number and then the control character, which is an alphabetic character that is calculated automatically (through a special algorithm) and serves as a control during the insertion of the request in the systems.

4.- Where can I find on this site my secret cod

To view your secret code, you need to access MyTIM Fixed (after registration) and click "My Account" and then download the pdf of the last invoice.

MOVING

All information to change the owner of the home phone line.

The takeover allows you to change the header of a phone line active at the same site where the plant is located thus ensuring continuity in the issue of invoices. Header modification is only possible with the consent of the owner of the line.

The takeover may be free of charge (family succession, family takeover requested by heir after the death owner of the line, taking over between separated spouses), or onerous. Who takes over defrays any contractual obligation of the previous holder.

DESCRIPTION

FAQs

RECOMMENDED
DEVICES

1.- Family Takeover

The family takeover request (free) can be performed by the owner of the line, by completing and submitting the online form, viewable directly on this website under MyTIM Fixed> My Line, or by calling Customer Service 187.

The takeover allows you to change the heading of the telephone contract in favor of another member of your household without interruption in the use of the telephone line.

Also remember that, once you take over, the direct debit of the decade invoice, so if you have and want to keep the debit bank account, you will need to make a new request. The change is free.

2.- Family took over requested heir after the death owner of the line

This type of takeover allows you to change the heading of the free phone contract in favor of an heir to the deceased owner of the line, without interruption in the use of the telephone line.

To request it you can choose to:

- Free call customer service 187 that will carry out a Verbal Ordering (recording of the conversation in which is expressed the will to take over)
- Send a written request for takeover of Telecom Italy Spa - Residential customer service - PO Box 211-14100 Asti or

3.- Takeover between separated spouses

This type of takeover allows you to change the heading of the free contract phone in favor of the assignee spouse of residence as a result of separation, without interruption, in the use of the telephone line.

To request it you can choose to:

- Free call customer service 187 that will carry out a Verbal Ordering (recording of the conversation in which is expressed the will to take over)
- Send a written request for takeover of Telecom Italy Spa - Residential customer service - PO Box 211-14100 Asti or

4.- Costly takeover

If the takeover is not in favor of a family member, it is onerous. To request it, you can download the form from this site and send it, filled in all its parts, to the fax number or postal address indicated on the form itself, or you can call customer service 187. Following your request, you will receive a copy of the contract to be signed and returned to TIM.

DOMICILIATION ON THE CURRENT ACCOUNT

As of 12/10/2015, you can home the cost of the renewal of offers of bank or postal account. This mode is added to the current domicile of the credit card.

To ask for domiciliation to your bank you will necessarily bring to you at a TIM store and exhibit your ATM card or Postamat entering the PIN code on the POS terminal. After the operation you will be asked to sign the permanent authorization form direct debit.

The activation of domiciliation is not immediate, but it needs the authorization of the banking institution that, in about a week, will communicate the outcome of the request and a text message will notify you that the operation is successful. Following the inclusion of the request for clearance, pending the outcome of the bank, you can request the activation of a service card with higher charges on "current account", if this method of payment is scheduled for the specific offer . Pending validation of the domiciliation, the first bid fee and the activation cost must be paid at the point of sale with the usual methods of payment. In the event that, in the period between the activation of the offer and the first renewal, the authorization from the bank will not be successful, the offer will not be renewed.

DESCRIPTION

FAQs

RECOMMENDED

DEVICES

1.- Can I activate the bank or post office by phone or via the web?

No, you will need to activate domiciliation necessarily bring to you at a TIM store and exhibit your ATM card or Postamat, enter the PIN code on the POS terminal and sign the activation Proposal offers debit to current account (Generic Mandate).

2.- Domiciliation on the current account is activated immediately?

No, domiciliation on the current account requires approval by the bank to be operational.

During the request is issued an authorization code generated by the acquisition through POS, valid until receiving the final outcome from the bank that typically arrive in about seven days.

3.- How do I know if my clearance request is successful?

Following the success of the operation, you will receive an SMS telling you the "framework mandate" 24-character code. The code is unique.

4.- Do I have to request an authorization for each bid activation?

No, the new legislation governing the banking protocol SDD (SEPA CORE DIRECT DEBIT) allows customers to use a single term for debiting TIM services on current account.

5.- Once you acquired the warrant, Can I offer the home of another person?

The tax code of the bank account holder must match that of the owner of the line on which the service is requested. In the case of joint account is sufficient correspondence between the owner of the SIM card and any of the account holders.

A COMPANY WITH A HUGE HISTORY

LOGO 1995

From birth TIM emerges as a brand with a young and modern office and, in line with an effervescent advertising, it immediately established itself as the brand of freedom, the aspirational dream but also the planning and friendship. From its inception, the brand has gradually evolved, updating its visual identity, in a fertile dynamic between renewal and protection of its equity view.

LOGO 1998

In 1998 the first restyling: the brand is superimposed on the "cookie" blue and the company slogan is "life improvement", which reinforces the perception of mobile phones, and the industry's leading brand, as a tool for personal development. The redesign was done by Landor Associates with the elimination of the initial capital and the inclusion of Acronym in typical oval keyboard.

LOGO 2014

From 2014, the brand evolves in the current 3D version more impact and digital appeal. And in fact the digital experience to be the context of reference of the new brand strategy launched in 2015 that sees the TIM brand more and more in the foreground, as the only Group signing for all fixed telecommunications offerings, mobile and internet.

LOGO 2016

Designed in collaboration with Interbrand, the brand is characterized by a red icon that represents a T and the white wordmark on a blue background. It deletes any containment shape, the historic "cookie", but retain the distinctive blue color. The lettering designed is a sans serif font, accurate and clear, with a touch of warmth and humanity.

The evolution of an icon

To evolve means to improve to be able to respond to new challenges. To accommodate the future and be a part of TIM is also renewed in the brand. Since its inception, more than 20 years ago, its logo was a sign of modernity and dynamism: a promise of projects and new horizons. Today continues to be a symbol of change, combining the expertise of two realities: The trigram red Telecom Italy, the intense blue of the TIM brand and a T to unite these two worlds. The synthesis of a great legacy and a strong orientation to the future. The result is simple and instant icon: evolved, evolved for times.

Change protagonist

The future is a horizon that moves from day to day. The technology allows people to express themselves and take advantage of the endless opportunities of this constantly changing.

The TIM is now the star of this change, it carries within it the technological strength of Telecom Italy and the dynamic vision and innovative that have always characterized the TIM.

Because it is aimed at those in the technology sees not only an exchange of information, but a sharing of experiences, thoughts and emotions. Something that makes us all more open, generous, inspired, human.

No.1 for Network Coverage

uSwitch
BEST NETWORK
COVERAGE
WINNER 2016

We're working hard to make our network faster, smarter and stronger. And we're proud to announce we won Best Network Coverage in the uSwitch Mobile Awards 2016, for the second year running.

But the work doesn't end here. We'll continue to invest in and upgrade our 2G and 3G networks. And we're bringing 4G to even more places, as part of our five-year £3bn network modernisation programme. In fact, we're aiming to provide indoor coverage for 98% of the population by the end of 2017

No.1 for Customer Service

For the 7th time in a row we've been ranked Number 1 Network for Customer Service Satisfaction by Ofcom. We're going to need a bigger shelf.

We want you to be able to get in touch with us as quickly and easily as possible. So we've increased the number of people supporting you over Live Chat and on our social media channels. We invest in new technology, and work hard on improving your experience online - including My O2. All while we continue to offer the best support we can in store and over the phone.

[FAQ](#)

HOW DO YOU MAKE MONEY?

Your traffic will be managed through Affiliate Window's tracking system. If any of the customers you drive to TIM purchases a product from TIM then you will see this track in your Affiliate Window account and a commission will be allocated. This system tracks in real time.

When a sale/commission is made it is entered into Affiliate Window with a 'pending' status and that commission then has to be validated for it to be paid out on. The majority of O2 programmes work on a 14 day sale validation rate meaning that a sale made on 1st July would be validated on 15th July.

Affiliates are paid twice a month on 1st and 16th of each month. The payments are based on the date that the commission is validated. Any commissions validated between 1st and 15th of one month will be paid out to affiliates on 1st of the next month. Any commissions validated between 16th and the end of one month are paid out to affiliates on 15th of the following month.

HOW CAN YOU JOIN US?

- 1.- Check the relevancy of your website and what vertical markets you are promoting.
- 2.- Select which O2 Program you would like to promote and click Apply now on links on the right.
- 3.- Register with Affiliate Window.
- 4.- They will quality check your site and be in touch on whether you qualify to promote O2.
- 5.- If you qualify implement our product feeds and promotional content and start earning commission!

WHY BE AN AFFILIATE?

- Bespoke affiliate programmes for all our products and services with competitive commissions and fast sales reporting
- Reliable and trustworthy sales tracking for each affiliate so all transactions are recorded and reported
- We have ongoing success stories of sales driven through affiliates across all their product portfolio

BUSINESS MODEL

The commercial presence of retail customers - that is private (individual customers and households) and business customers - refers to these organizational drivers:

- Ensure the accountability of end to end processes of marketing, sales and after sales of each customer segment,
- Foster the development of integrated "customer centric" and focusing on the digital market services
- Create synergies between the commercial channels, to increase the efficiency and effectiveness of the multi-channel model
- Encourage the development of "platform-based" services by expanding the product portfolio of TIM

OUR ETHICS CODE

The Code of Ethics sets out the objectives and the values informing the Company, establishing, in programmatic terms, the corpus of principles serving our actions for the conduct of ethically oriented business: transparent, honest and fair. Respecting the Code is a requirement for governing bodies, management and the employees of all the Group companies, as well as employees and third parties in dealings with the Group, in the limits of their powers, functions and responsibilities.

BUSINESS
FAQ

1.- Why in Telecom Italy we decided to engage in sustainability?

We chose to be sustainable not only because we believe in ethical business conduct, but also because sustainability facilitates the creation of lasting value for shareholders and other stakeholders. We believe that in the current context of great economic, social and environmental only those companies that better than others will have integrated in their strategy, these trends will be better equipped to compete and develop.

2.- What are the principles of the sustainability policy of Telecom Italy?

At the base of the entire system of governance of the Group's Code of Ethics, which indicates the macro business objectives and behavioral principles to be followed for their pursuit of these goals are tailored to the Group in specific policies, together procedures, regulations and internal instructions, ensure adherence to the Code of the Group Companies behaviors and values of all its recipients.

3.- How many years the Group measures inside the sustainability?

Seventeen years that the Group analyzes its sustainability performance and produces its balance sheet. Since 2009 the Sustainability Report follows a multi-stakeholder approach, with a chapter devoted to each of them: customers, suppliers, environment, community, competitors, institutions, employees, shareholders.

4.- What is it based the analysis of the sustainability performance?

The analysis of the performance and the related reporting are based on a multi-stakeholder and on a set of KPIs approach (Key Performance Indicators), processed in accordance with the GRI (Global Reporting Initiative), the signs of stakeholders and the checklists of the leading rating agencies for admission to Sustainability indexes. The methodology adopted to measure investments in the Community is that defined by the London Benchmarking Group (LBG).
